

## Want to make a difference? Become a Trustee!

Do you live or work in the Epping Forest District and have an interest in your local community? Then why not come and join our Board of Trustees.

Citizens Advice Epping Forest is a small local charity but we make a big difference to thousands of local residents each year. We offer free information and advice on issues that matter to local people such as - benefits, debt, housing, employment, family and the cost of living crisis.

Our Board is a diverse group of like minded people, who oversee and develop our much needed service. As a Trustee you will directly contribute to the direction of the charity and ensure that we are able to continue helping people. You will read papers and attend 4 in person Board meetings per year, in Epping plus an annual strategy meeting. You will also work remotely on subcommittees and specific projects with other trustees or the small number of dedicated paid staff.

We are also looking for 'volunteer experts' who could offer us some of their spare time but who are not sure about committing to a full Trustee role.

Experience of service delivery to those in need would be great, or maybe you have been a service user yourself. Digital communication skills, safeguarding or legal knowledge would be useful. But whatever you have to contribute, we'd love to hear from you.

We welcome applicants from all walks of life. These are voluntary unpaid roles but you'll be rewarded with a wealth of new experiences, supportive colleagues and great satisfaction.

Drop us an email [hello@citizensadviceefd.org.uk](mailto:hello@citizensadviceefd.org.uk) and one of our Trustees will be in touch to arrange an informal chat with you.
